

...As protective as you are

WE GET WHY YOU'RE SO PROTECTIVE

Fair Dinkum Sheds has worked with the equestrian community for over two decades and we've come to understand what's important to breeders, trainers and private horse owners. Whether you're working with horses recreationally or professionally, we know your unique concerns and value of your animals to your lifestyle and your business. We understand why you'd be a little protective.

DESIGNED AROUND YOU AND YOUR HORSE

Just as every horse is unique, Fair Dinkum Sheds offer the ability to design something that is completely made with you and for you. We think ahead to everything your horse needs from comfort, safety and hygiene issues to practical things like access, equipment storage and wash bays.

BUILT TO LAST

Fair Dinkum Sheds build with high quality COLORBOND® and ZINCALUME® Australian Steel, to Australian building standards. With experience earned constructing more than 180,000 sheds in 25 years and with 180 expert distributors across Australia, there's no one you can trust more to get exactly what you're looking for.

Adding value to your land and enjoyment to your riding experience

RIDING ARENAS

An indoor riding arena is a valuable investment that will undoubtedly enhance your riding experience, but there are many questions that need to be answered. Small or large? Enclosed or open? What shape is ideal for your property and your purpose? Be it dressage, jumping or any other form of training?

Whether you're planning a place for personal practice or an arena to showcase competitive dressage, our arenas can be engineered to provide the ideal, stress-free environment for your horses. You can add protective elements such as partial enclosure, curtain walls or gable infills.

Fair Dinkum Sheds riding arenas are made to measure to give you countless hours of riding pleasure.

FARM / EQUIPMENT SHEDS

Whether you're a breeder, racer or simply an enthusiastic owner with a need for feed storage, turf management machinery or other equipment, a well thought-out storage building will give you tremendous value. If you're like many horse enthusiasts, you've also probably got a hundred ideas - right down to the ventilation you'll need, lighting, access points, flooring or additional storage space for equipment and machinery.

No matter how unique your space requirements or how specific your ideas, Fair Dinkum Sheds flexibility in design will allow you to build a shed that's one of a kind. Including open and enclosed bays, wide or uneven bays to accommodate manner of tools, material and equipment.

STABLES

Offering both stable sheds or stable barns, Fair Dinkum Sheds has an extensive range of styles and options to suit all situations and preferences. Whether it's open or closed front, gable, monopitch or barn style, we'll help assess your space requirements and adapt the design to work best for it. From flooring options to fitout materials and accessories including stable panels, shutters, day yard doors or split doors, to feeding and watering, weather and drainage considerations.

Every property is different and every owner has unique concerns and considerations. That's where the help of an experienced builder - who knows the equestrian community - is an important factor. Our flexible design and fitout will ensure you get a stable that is not only perfect for your property, but ideal for your horse.

HORSE SHELTERS / Paddock Shelters

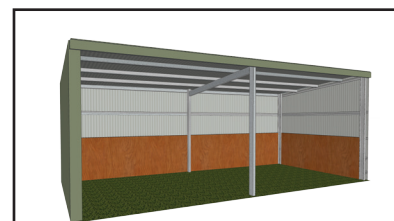

Horse shelters are a great option for those looking for something portable and practical. Our designers have created a steel frame structure that bolts together to offer excellent protection from the sun and extreme weather. The design is specifically engineered to be simple and economical without sacrificing strength and durability.

These open front structures are carefully designed to reduce the risk to the horse. Engineered without sharp edges, they are cleverly constructed to reduce chewing and cribbing.

These standard design features an extra girt for added strength. Girts are 1200mm so you can easily add optional standard size ply or rubber wall lining. All components are delivered to the site where they can be erected and bolted together quickly with a minimum of cutting required—and it's just as quick to disassemble and relocate at a moment's notice. Making this the simplest, easiest way to provide excellent shelter for your horses wherever you need it.

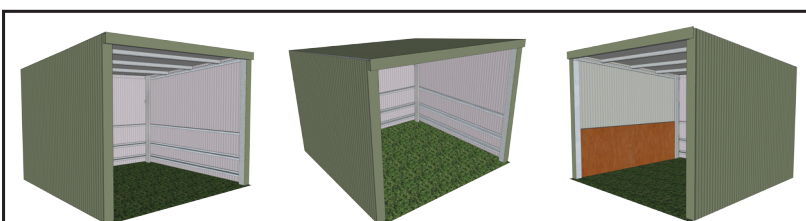

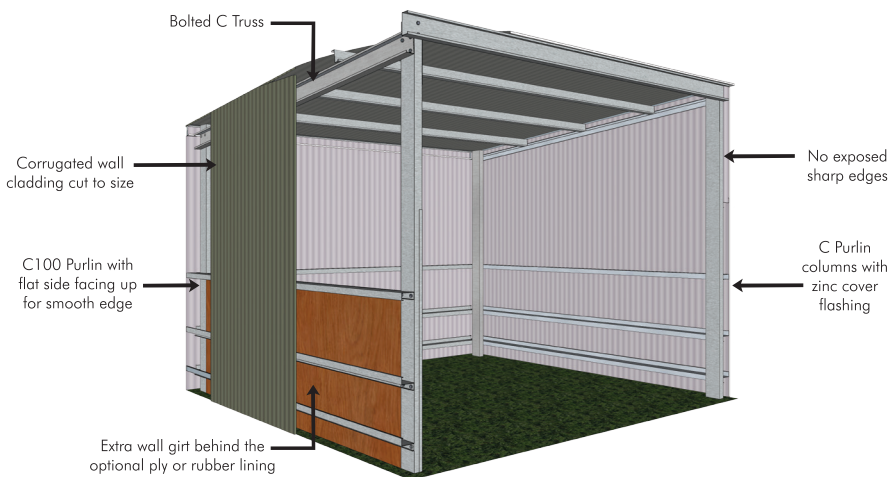

LARGE SINGLE HORSE SHELTER	Length (m)	3.9
	Width (m)	3.89
	Height (m)	2.7 (low end)

DOUBLE HORSE SHELTER	Length (m)	6.18
	Width (m)	3.136
	Height (m)	2.7 (low end)

LARGE DOUBLE HORSE SHELTER	Length (m)	7.710
	Width (m)	3.89
	Height (m)	2.7 (low end)

SINGLE HORSE SHELTER

Length (m)	3.14
Width (m)	3.13
Height (m)	2.7 (low end)

*Note: The design may alter from one wind region to another and combinations of structural components may change to that in the image shown (diagrammatic only)
